DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE						
<p>This is a small one and one-half story house, typical three bay long frame structure built on brick piers. The building is covered with plain weatherboarding. It also has a one story kitchen wing, two bays long, with a leanto porch out the back. The windows of the main portion have 9/6 sash, and 6/6 sash on the three dormers on each side of the roof. The cornice is of interest, the upper molding is a very bold ovolo molding, typical of the 1830's period, which would be found on a mantel of that period but very rarely on an exterior cornice. The house retains its original early louvered shutters. For that period it has very narrow window frames.</p>

**STATEMENT OF SIGNIFICANCE**

The house is one of the best buildings of the period on Town Point. Architecturally it is representative of the most common form of vernacular dwelling in the county. It was moved to its present location in the middle of the farm in 1912 from the edge of the creek and part was built onto the structure at that time.
